

## RUST TREET

### FEATURES

- Strong, fast acting acid-surfactant formulation
- Eliminates rust and stains on metals within minutes
- Dissolves scale and metal oxides
- Metal prep agent
- Improves paint adhesion
- Nonflammable

### PROPERTIES

**Appearance:** Clear

**Color:** Green

**Specific gravity:** 1.1-1.3 gr/cc

**pH:** <1.0

**Storage stability:** Keep in closed container away from open flame and below 120 °F

**Flammability:** Nonflammable

**Solubility in water:** Soluble

**Packaging:** Metal 55 gal drums  
5 gal pails  
4 x 1 gal cases

Properties are subject to usual manufacturing tolerances.

**Rust Treet** is a concentrated blend of inorganic acids, wetting agents, and surfactants specifically designed for the rapid removal of rust. The surfactant action helps to remove grease and oils which may have accumulated on the metal surface.

**Rust Treet** is used to soften and dissolve rust from machinery, equipment, sheet iron, pipes, metal parts, automobiles, stainless steel.

**Rust Treet** may be applied by soaking, brushing, or spraying onto surfaces. Treatment time will vary depending upon the extent of the rust to be removed. Usually the process may be accomplished within 30 minutes, but solution may remain on surface for longer periods if required. It may be necessary to make a second application if rusting is excessive. Do not rinse. It is recommended to neutralize and coat the surface with a non-water based primer or oil based paint immediately after using **Rust Treet**.

**Rust Treet** contains strong acids and ammonium bifluoride. Corrosive. This product will etch glass or porcelain surfaces. If contact occurs, rinse with water immediately.

See label for additional information on uses.

Avoid contact with eyes and skin. Refer to the attached SDS for pre-cautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product.

However, we are not responsible for any use not recommended by Interchem.
