Titan Fire Blankets are a simple and effective fire control instrument. They are used in the incipient stage of a fire and are especially effective in controlling kitchen fires and smothering fires on a person's clothing. Titan Fire Blankets also cuts off a fire's oxygen supply smothering it permanently or until more effective fire-fighting equipment can be utilized.

SPECIFICATIONS

SIZE	1.8 m x 1.8 m (6 FT x 6 FT)
MATERIAL	Silicone coated woven fiberglass
WEIGHT	430 g/m ²
TEMPERATURE	550°C
PACKING	Packed in hard PVC Rigid box

To use your Titan Fire Blanket take the following steps:

1. Raise an alarm and evacuate area.
2. Pull down tabs to release blanket.
3. Place (not throw) the fire blanket over fire, keeping hands and face protected behind it.
4. Turn off heat source.
5. Leave the fire blanket over the burnt area for at least 15 minutes or until heat has dissipated.
6. Stand-by with a fire extinguisher in the event that the fire is not contained.

NOTE:

Before using your fire blanket always read the instructions. "SINGLE USE ONLY!"
It is essential that you dispose of the Fire Blanket once it has been used.

In the event that a person's clothing has caught on fire follow these steps:

1. Quickly wrap the fire blanket around the person.
2. Drop the victim to the ground.
3. Roll the victim on ground until the fire is out.
4. Seek medical attention immediately.
