

Ready-To-Use Oven & Grill Cleaner

◆ Commercial Grade

UNIQUE FEATURES

- Removes Tough Grease & Carbon Deposits
- Works on warm or cold ovens, broilers, flat-top grills and griddles, barbeque grills, and stainless steel components.
- Contains ingredients listed on the EPA's Safer Choice Program

InterChem's Oven & Grill Cleaner is a powerful alkaline solution that effortlessly cuts through tough baked-on soils like carbon, grease, and food deposits. Rapid penetration and emulsification action on hot or cold surfaces. Designed for commercial use in food service settings, this non-flammable cleaner is perfect for deep cleaning ovens, grills, griddles, drip pans, hoods, rotisseries, and deep fat fryers.

Before using InterChem's Oven & Grill Cleaner, food products and packaging materials must be removed from the area or carefully protected. Apply evenly over surface, using a sprayer, foamer, brush, cloth, scrub pad or steel wool. Allow InterChem's Oven & Grill Cleaner to cling to the surface for two or more minutes.

For heavier soils, allow longer contact time. Use an abrasive pad or steel wool for stubborn areas. After using this product, all surfaces must be thoroughly rinsed with water.

NOTE: This product must be handled with care and used in a manner so that all odors associated with the product are dissipated before food products or packaging material are re-exposed in the area.
